This language expert interprets everything you say, and everything the doctors and nurses say, so that you understand each other perfectly.</p> <p>Providing an interpreter is the responsibility of the doctor or hospital. The interpreter helped Mrs. Li understand exactly what she needed to do to help her daughter stay healthy.</p> <p>Do not use your own family or friends as interpreters; this needs to be done by a trained professional.</p> <p>You cannot use any <i>children</i> as interpreters.</p> <p>When scheduling an appointment with any new doctor, be sure to let them know that you need an interpreter in your language.</p>
